Dear Shorthorn and Polled Shorthorn Breeders:

You will have an opportunity to purchase some of the best cattle ever to be offered at the Kansas State sale. Of the majority of the cattle that I have seen, there are not the normal tail enders this year.

The Bull offering is full of top quality bulls that are ready for service and that will be ready for service next spring.

I will guarantee that you have never seen as good a set of females in a sale as what you will see come through the ring on November 5. Many of the females have been hand selected by breeders throughout North America.

There also will be an outstanding set of club calf prospects, including half brothers to the Reserve Grand Champion steer at this years state fair.

Remember, the only way to raise great ones is to prospect for the great kind of foundation cattle!

LARRY NORTH

STANDARD GUARANTEE

(Recommended by American Shorthorn Association)

- A. Proper care must be given to purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf, must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee, the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt, it shall be returned to the purchaser at his expense. In case of dispute, the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder, the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy, if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.

He's very GENTLE & quiet and should mature into a huge bull with great eye-appeal. We recommend him highly to the herd that wants to take a BIG STEP forward. Semen tested.

WHY BUY SHORTHORNS?

Shorthorn bulls are active, sure breeders.

They put more growth into their calf crops.

Shorthorns are historically known for their faster gaining and finishing ability. The demand for Shorthorn and Shorthorn crossbred feeders far exceeds existing supplies. Consequently, they sell for a premium.

Shorthorn bulls put more miling ability into their daughters.....this means heavier weaning weights.

Shorthorn docility is world famous, making them ideal projects for youngsters.

Shorthorns eliminate the cancer eye, sunburned and snowburned udder problems.

Shorthorns are known as THE GREAT IMPROVERS." Shorthorn crosses have been proven in test after test to be superior to other crossbreds in milking ability, rate of gain and feed efficiency.

Ask yourself why so many commercial herds are now crossbreeding with Shorthorns? IT'S BECAUSE THEY ARE BEST IN EVERY WEIGH.

Hubs Selector. A Champion at almost every major Show he has been shown. (Lot 24)
